INDEX OF AUTHORS OF PAPERS

AARONSON, JON
A remark on the exactness of inner functions, **23**(2), 1981, 469–474
ABD-ALLAH, AHMED M. & BROWN, RONALD
A compact-open topology on partial maps with open domain, **21**(2), 1980, 480–486
ABDESSEMED, A.
Bounds for constants in some operator inequalities in the Schatten classes, **41**(2), 1990, 303–309
ABDESSEMED, A. & DAVIES, E. B.
Some commutator estimates in the Schatten classes, **39**(2), 1989, 299–308
ABELS, HERBERT
Some topological aspects of proper group actions; non-compact dimension of groups, **25**(2), 1982, 525–538
ABERTH, O.
An inequality for convex polyhedra, **6**(2), 1973, 382–384
ABIAN, A.
Boolean rings with isomorphisms preserving suprema and infima, **3**(2), 1971, 618–620
Prime ideals of subrings of Boolean rings, **5**(2), 1972, 219–221
ABRAMSON, F. G. & SACKS, G. E.
Uncountable Gandy ordinals, **14**(2), 1976, 387–392
ABU-MUHANNA, YUSUF
Variability regions and support points of subordinate families, **29**(2), 1984, 477–484
ABU-MUHANNA, YUSUF & HALLENBECK, D. J.
Support points of subordination families with univalent majorants, **31**(2), 1985, 88–90
ADAMS, COLIN C.
Volumes of n-cusped hyperbolic 3-manifolds, **38**(2), 1988, 555–565
ADAMS, GREGORY & TREBELS, WALTER
A matricial approach to nuclear reduced Hankel operators, **45**(2), 1992, 536–548
ADAMS, J. F.
On decompositions of the sphere, **29**(1), 1954, 96–99
A new proof of a theorem of W. H. Cockcroft, **30**(1), 1955, 482–488
Four applications of the self-obstruction invariants, **31**(1), 1956, 148–159
ADAMS, J. F. & LIULEVICIUS, A.
The Hurewicz homomorphism for MU and BP, **5**(2), 1972, 539–545
ADAMS, M. E.
Implicational classes of pseudocomplemented distributive lattices, **13**(2), 1976, 381–384
ADELEKE, S. A., GLASS, A. M. W. & MORLEY, L.
Arithmetic permutations, **43**(2), 1991, 255–268
ADEWOYE, T. O.
Restrictions of Fourier–Stieltjes transforms, **13**(2), 1976, 493–496
ADLER, A.
A reduction of homogeneous diophantine problems, **3**(2), 1971, 446–448
ADNAN, S.
A characterization of PSL (2, 7) (I), **13**(2), 1976, 215–225
AGARWAL, N.
Certain basic hypergeometric identities of the Cayley–Orr type, **34**(1), 1959, 37–46
AGNEW, R. P.
Some remarks on a paper entitled "General Tauberian theorems", **15**(1), 1940, 242–246
Mercer's summability theorem, **29**(1), 1954, 123–125
AGRONSKY, S. J., BRUCKNER, A. M. & LACZKOVICH, M.
Dynamics of typical continuous functions, **40**(2), 1989, 227–243
AHARONI, R., NASH-WILLIAMS, C. ST. J. A. & SHELAH, SAHARON
Another form of a criterion for the existence of transversals, **29**(2), 1984, 193–203
AHARONI, RON
On a duality principle in infinite bipartite graphs, **28**(2), 1983, 385–392
König's duality theorem for infinite bipartite graphs, **29**(2), 1984, 1–12

AHARONI, RON & HOLZMAN, RON
Two and a half remarks on the Marica–Schönheim inequality, **48**(2), 1993, 385–395
AHARONI, RON & POUZET, MAURICE
Bases in infinite matroids, **44**(2), 1991, 385–392
AHARONOV, D.
The theorem of Cartwright, Spencer and Hayman, **1**(2), 1969, 119–126
Bazilevič's theorem for areally mean p-valent functions, **27**(2), 1983, 277–280
AHARONOV, D., SHAPIRO, H. S. & SHIELDS, A. L.
Weakly invertible elements in the space of square-summable holomorphic functions, **9**(2), 1975, 183–192
AHMAD, IBRAHIM A.
On concentration functions of random sums of independent random variables, **21**(2), 1980, 189–192
Conditioned concentration functions for sums of independent random variables, **22**(2), 1980, 570–574
AHMAD, M.
On analytical continuation by the partial sums of a power series, **39**(1), 1964, 577–579
AHMED, S., LAFORGIA, A. & MULDOON, M. E.
On the spacing of the zeros of some classical orthogonal polynomials, **25**(2), 1982, 246–252
AIGNER, M. & BRANDT, S.
Embedding arbitrary graphs of maximum degree two, **48**(2), 1993, 39–51
AIGNER, M. & PRINS, G.
Uniquely partially orderable graphs, **3**(2), 1971, 260–266
AIKAWA, HIROAKI
Harmonic functions and Green potentials having no tangential limits, **43**(2), 1991, 125–136
AINOUCHE, AHMED & CHRISTOFIDES, NICOS
Conditions for the existence of Hamiltonian circuits in graphs based on vertex degrees, **32**(2), 1985, 385–391
AITHAL, A. R.
Harmonic maps from S^2 to $G_2(\mathbb{C}^5)$, **32**(2), 1985, 572–576
AKEMANN, C. A. & OSTRAND, P. A.
The spectrum of a derivation of a C*-algebra, **13**(2), 1976, 525–530
ALAM, MAHFOOZ & ZAHEER, NEYAMAT
Some applications of the theory of polar-composite polynomials, **22**(2), 1980, 403–410
AL'BER, MARK S. & AL'BER, SOLOMON J.
Hamiltonian formalism for nonlinear Schrödinger equations and sine-Gordon equations, **36**(2), 1987, 176–192
AL'BER, S. I.
Investigation of equations of Korteweg–de Vries type by the method of recurrence relations, **19**(2), 1979, 467–480
AL'BER, SOLOMON J. *See* Al'ber & Al'ber
ALBEVERIO, SERGIO, KUSUOKA, SHIGEO & RÖCKNER, MICHAEL
On partial integration in infinite-dimensional space and applications to Dirichlet forms, **42**(2), 1990, 122–136
AL-BORNEY, M. S. & BRICKELL, F.
A note on area measures, **4**(2), 1972, 466–468
ALCÁNTARA, JULIO
Closure of cones in completed injective tensor products, **28**(2), 1983, 551–554
ALDOSRAY, FALIH A. M.
Subideals of the join of permutable Lie algebras, **29**(2), 1984, 63–66
ALDOUS, DAVID J.
A characterisation of Hilbert space using the central limit theorem, **14**(2), 1976, 376–380
Some inequalities for reversible Markov chains, **25**(2), 1982, 564–576
ALEXANDER, F. E.
Some counter-examples on annihilator, dual, and complemented A*-algebras, **8**(2), 1974, 735–740
The bidual of A*-algebras of the first kind, **12**(2), 1976, 1–6
ALEXANDER, H. & KOREVAAR, J.
Approximation on wild Jordan Curves, **13**(2), 1976, 317–322

ALEXANDER, J. C. & ZAGIER, DON
The entropy of a certain infinitely convolved Bernoulli measure, **44**(2), 1991, 121–134
ALEXANDER, STEPHANIE B. & CURRIER, ROBERT J.
Non-negatively curved hypersurfaces of hyperbolic space and subharmonic functions, **41**(2), 1990, 347–360
ALEXOPOULOS, G. & LOHOUÉ, N.
Sobolev inequalities and harmonic functions of polynomial growth, **48**(2), 1993, 452–464
ALFSEN, E. M. & ANDERSEN, T. B.
On the concept of centre in $A(K)$, **4**(2), 1972, 411–417
AL-HAMMADI, A. S. A. & EASTHAM, M. S. P.
Higher-order differential equations with small oscillatory coefficients, **40**(2), 1989, 507–518
ALJADEFF, ELI
Serre's extension theorems for crossed products, **44**(2), 1991, 47–54
ALLAN, G. R.
On one-sided inverses in Banach algebras of holomorphic vector-valued functions, **42**(1), 1967, 463–470
Holomorphic vector-valued functions on a domain of holomorphy, **42**(1), 1967, 509–513
A form of local characterization of Gelfand transforms, **43**(1), 1968, 623–625
An extension of the Silov–Calderón theorem, **44**(1), 1969, 595–601
An extension of Rossi's local maximum modulus principle, **3**(2), 1971, 39–43
Elements of finite closed descent in a Banach algebra, **7**(2), 1974, 462–466
ALLATT, P. & SLATER, J. B.
Congruences on some special modular forms, **17**(2), 1978, 380–392
ALLEGRETTO, W.
Eigenvalue comparison and oscillation criteria for elliptic operators, **3**(2), 1971, 571–575
ALLEN, A. C.
Note on a theorem of Gabriel, **27**(1), 1952, 367–369
ALLEN, A. C. & KERR, E.
The converse of Fatou's theorem, **28**(1), 1953, 80–89
Harmonic functions and Tauberian theorems (I), **29**(1), 1954, 104–115
ALLEN, H. S.
Maximum matrix rings, **18**(1), 1943, 142–147
T-transformations which leave the core of every bounded sequence invariant, **19**(1), 1944, 42–46
Linear transformations and infinite matrices, **30**(1), 1955, 500–504
Transformations of sequence spaces, **31**(1), 1956, 374–376
ALLEN, H. S. & GREEN, H. F.
Existence theorems for reciprocals of infinite matrices belonging to rings of transformations, **30**(1), 1955, 504–507
ALLEN, S.
On the factorisations of natural numbers in an algebraic number field, **11**(2), 1975, 294–300
ALLENBY, R. B. J. T.
On amalgams of nilpotent groups, **43**(1), 1968, 707–713
ALLOUCHE, J.-P. & SHALLIT, J. O.
Infinite products associated with counting blocks in binary strings, **39**(2), 1989, 193–204
ALLWRIGHT, D. J.
Functions that increase cross-ratios; with applications to recurrence relations and differential equations, **19**(2), 1979, 371–377
ALLWRIGHT, D. J. & MEES, A. I.
Lyapunov's method applied to the Hopf bifurcation, **20**(2), 1979, 293–299
ALPERIN, ROGER C. & MOSS, KENNETH N.
Complete trees for groups with a real-valued length function, **31**(2), 1985, 55–68
ALPERN, STEVE
Approximation to and by measure preserving homeomorphisms, **18**(2), 1978, 305–315
AL-SALAM, W. A.
Saalchützian theorems for basic double series, **40**(1), 1965, 455–458
ALSPACH, B., BROWN, T. C. & HELL, P.
On the density of sets containing no k-element arithmetic progression of a certain kind, **13**(2), 1976, 226–234

ALSPACH, DALE E.
A characterization of the complemented translation invariant subspaces of $L_1(\mathbb{R}^2)$, **31**(2), 1985, 115–124
Level sets and the uniqueness of measures, **48**(2), 1993, 249–262
ALUFOHAI, IMOHIMI C.
A class of weak Bernoulli transformations associated with representations of real numbers, **23**(2), 1981, 295–302
AMAO, J. O.
An upper bound for the multiplicity of a certain local ring, **12**(2), 1976, 327–330
On a certain Hilbert polynomial, **14**(2), 1976, 13–20
AMAR, D. & AMAR, E.
Bases d'exponentielles en plusieurs variables, **16**(2), 1977, 253–265
AMAR, E.
Cohomologie complexe et applications, **29**(2), 1984, 127–140
See also Amar & Amar
AMAYO, R. K.
Finiteness conditions on soluble Lie algebras, **8**(2), 1974, 283–289
AMAYO, R. K. & STEWART, I.
Finitely generated Lie algebras, **5**(2), 1972, 697–703
AMICK, CHARLES J.
Decomposition theorems for solenoidal vector fields, **15**(2), 1977, 288–296
Some remarks on Rellich's theorem and the Poincaré inequality, **18**(2), 1978, 81–93
An existence theorem for a certain class of nonlinear multipoint boundary-value problems, **21**(2), 1980, 304–310
AMIN, A. Y.
Note on a property of a quartic surface in four dimensions, **10**(1), 1935, 16–19
The harmonic envelope of the normal rational quartic surface in four dimensions, **10**(1), 1935, 200–203
A special type of quartic surface with a node, **11**(1), 1936, 141–146
AMITSUR, S. A.
On rings with identities, **30**(1), 1955, 464–470
The *T*-ideals of the free ring, **30**(1), 1955, 470–475
On a central identity for matrix rings, **14**(2), 1976, 1–6
AMSON, J. C.
Representations of multilinear and polynomial operators on vector spaces, **4**(2), 1972, 394–400
Multilinear and polynomial transformations of bounded-sequence spaces, **4**(2), 1972, 643–646
Some continuous, and compact, polynomial operators on function spaces, **5**(2), 1972, 223–230
On polynomial operator equations in Banach space, **10**(2), 1975, 171–174
ANANDAM, VICTOR
Admissible superharmonic functions and associated measures, **19**(2), 1979, 65–78
ANANDA-RAU, K.
On the converse of Abel's theorem, **3**(1), 1928, 200–205
ANCONA, A., HAYMAN, W. K. & WU, JANG-MEI
The growth of harmonic functions along a path in space, **24**(2), 1981, 513–524
ANCONA, ALANO
On strong barriers and an inequality of Hardy for domains in $\mathbb{R}^n$, **34**(2), 1986, 274–290
ANDERSEN, KENNETH F.
On an inequality for the Hilbert transform, **16**(2), 1977, 290–296
ANDERSEN, L. D., HILTON, A. J. W. & RODGER, C. A.
A solution to the embedding problem for partial idempotent latin squares, **26**(2), 1982, 21–27
ANDERSEN, TAGE BAI
Relative width and extension constants for compact convex sets, **22**(2), 1980, 333–337
A characterization of metrizable simplexes, **22**(2), 1980, 338–344
See also Alfsen & Andersen

ANDERSEN, T. B. & ATKINSON, H. R.
On Banach algebra-valued facially continuous functions, **9**(2), 1975, 381–384
ANDERSON, I.
On primitive sequences, **42**(1), 1967, 137–148
On the divisors of a number, **43**(1), 1968, 410–418
ANDERSON, J. A. H.
The minimum sum of an arbitrary family of ordinals, **7**(2), 1974, 429–434
Neighbourhood systems, **12**(2), 1976, 440–446
ANDERSON, J. G.
The degrees of completeness of Dummett's *LC* and Thomas's LC_n, **3**(2), 1971, 558–560
ANDERSON, J. M.
A note on starlike schlicht functions, **40**(1), 1965, 713–718
The radial growth of integral functions, **2**(2), 1970, 318–320
The growth of entire functions of finite lower order, with density conditions, **4**(2), 1971, 118–122
On a theorem of Rudin concerning the Class A, **17**(2), 1978, 271–274
ANDERSON, J. M., BECKER, J. & LESLEY, F. D.
On the boundary correspondence of asymptotically conformal automorphisms, **38**(2), 1988, 453–462
ANDERSON, J. M. & HINKKANEN, AIMO
Univalent functions and domains bounded by quasicircles, **25**(2), 1982, 253–260
Correction to 'Univalent functions and domains bounded by quasicircles', **27**(2), 1983, 75
Positive superharmonic functions and the Hölder continuity of conformal mappings, **39**(2), 1989, 256–270
ANDERSON, J. M., ROSENBLUM, M. & ROVNYAK, J.
Hilbert space extremal problems with constraints, **31**(2), 1985, 517–525
ANDERSON, J. M. & TOPPILA, SAKARI
The growth of the spherical derivative of a meromorphic function of finite lower order, **27**(2), 1983, 289–305
ANDERSON, L. W.
The existence of continuous lattice homomorphisms, **37**(1), 1962, 60–62
ANDERSON, R., DIVINSKY, N. & SULINSKI, A.
Lower radical properties for associative and alternative rings, **41**(1), 1966, 417–424
ANDREADAKIS, S.
On semicomplete groups, **44**(1), 1966, 361–364
ANDREWS, G. E.
On a partition problem of J. J. Sylvester, **2**(2), 1970, 571–576
Generalizations of the Durfee square, **3**(2), 1971, 563–570
Summations and transformations for basic Appell series, **4**(2), 1972, 618–622
ANDREWS, KEVIN T.
The Radon–Nikodym property for spaces of operators, **28**(2), 1983, 113–122
ANG, DANG DINH
A convolution equation on a compact interval, **2**(2), 1970, 467–472
ANGENENT, SIGURD
Solutions of the one-dimensional porous medium equation are determined by their free boundary, **42**(2), 1990, 339–353
ANKENY, N. C. & CHOWLA, S. D.
Diophantine equations in cyclotomic fields, **43**(1), 1968, 67–70
ANNULIS, JOHN T.
A characterization of extended vector lattices, **14**(2), 1976, 86–90
ANOUSSIS, M. & KATSOULIS, E. G.
Complemented subspaces of C_p spaces and CSL algebras, **45**(2), 1992, 301–313
ANSEMIL, J. M., ARON, R. M. & PONTE, S.
Embeddings of spaces of holomorphic functions of bounded type, **46**(2), 1992, 482–490
ANTOSIEWICZ, H. A.
Non-linear differential equations of the second order with integrable forcing term, **30**(1), 1955, 64–67
Stable systems of differential equations with integrable perturbation term, **31**(1), 1956, 208–212

APOSTAL, C.
b^*-algebras and their representation, **3**(2), 1971, 30–38
APPLING, W. D. L.
Concerning a class of linear transformations, **44**(1), 1969, 385–396
ARAZY, JONATHAN, FISHER, STEPHEN D., JANSON, SVANTE & PEETRE, JAAK
Membership of Hankel operators on the ball in unitary ideals, **43**(2), 1991, 485–508
ARCHBOLD, J. W.
Note on a family of regular surfaces, **12**(1), 1937, 28–29
On irregular surfaces associated with Cremona involutions, **12**(1), 1937, 136–139
Note on a sextic surface, **12**(1), 1937, 204–205
ARCHBOLD, R. J.
Density theorems for the centre of a C*-algebra, **10**(2), 1975, 189–197
On the centre of a tensor product of C*-algebras, **10**(2), 1975, 257–262
A mean ergodic theorem associated with the free group on two generators, **13**(2), 1976, 339–345
Extensions of states of C*-algebras, **21**(2), 1980, 351–354
On the simple C*-algebras of J. Cuntz, **21**(2), 1980, 517–526
Topologies for primal ideals, **36**(2), 1987, 524–542
ARCHBOLD, R. J. & BATTY, C. J. K.
C*-tensor norms and slice maps, **22**(2), 1980, 127–138
ARDITTI, J. C. & JUNG, H. A.
The dimension of finite and infinite comparability graphs, **21**(2), 1980, 31–38
ARIAS, ALVARIO & MASCIONI, VANIA
Best approximations in preduals of von Neumann algebras, **46**(2), 1992, 491–498
ARKERYD, LEIF
Thom's Theorem for Banach spaces, **19**(2), 1979, 359–370
ARKERYD, LEIF & BERGH, JÖRAN
Some properties of Loeb–Sobolev spaces, **34**(2), 1986, 317–334
ARMENDARIZ, EPHRAIM P. & HAJARNAVIS, C. R.
Noetherian rings whose factor rings are orders in Artinian rings, **34**(2), 1986, 12–16
ARMITAGE, D. H.
On the extension of superharmonic functions, **4**(2), 1972, 215–230
On the global integrability of superharmonic functions in balls, **4**(2), 1971, 365–373
A linear function from a space of polynomials onto a space of harmonic polynomials, **5**(2), 1972, 529–538
Further results on the global integrability of superharmonic functions, **6**(2), 1972, 109–121
A polyharmonic generalization of a theorem on harmonic functions, **7**(2), 1973, 251–258
On polyharmonic functions in $R^n\backslash\{O\}$, **8**(2), 1974, 561–569
A counter-example in potential theory, **10**(2), 1975, 16–18
Uniqueness theorems for harmonic functions in domains of revolution, **15**(2), 1977, 103–112
Representations of superharmonic functions in half-spaces, **18**(2), 1978, 273–286
Spherical extrema of harmonic polynomials, **19**(2), 1979, 451–456
Half-spherical means and harmonic majorization in half-spaces, **19**(2), 1979, 457
On hyperplane mean values of subharmonic functions, **22**(2), 1980, 99–109
Hyperplane mean values of positive superharmonic functions, **23**(2), 1981, 129–136
A Nevanlinna theorem for superharmonic functions in half-spaces, with applications, **23**(2), 1981, 137–157
ARMITAGE, D. H. & GARDINER, S. J.
The growth of the hyperplane mean of a subharmonic function, **36**(2), 1987, 501–512
ARMITAGE, D. H. & GOLDSTEIN, M.
Quadrature and harmonic approximation of subharmonic functions in strips, **46**(2), 1992, 171–179
ARMITAGE, D. H. & KURAN, Ü.
On positive harmonic majorisation of y in $R^n \times (0, +\infty)$, **3**(2), 1971, 733–741
Sharp bounds for harmonic polynomials, **42**(2), 1990, 475–488
Lacunary Poisson functions and axial harmonic polynomials, **44**(2), 1991, 476–490
ARMITAGE, J. V.
Euclid's algorithm in algebraic function fields, **38**(1), 1963, 55

Corrigendum and *addendum*: Euclid's algorithm in algebraic function fields, **43**(1), 1968, 171

ARMSTRONG, G. M.
A classical approach to the Denjoy integral by parametric derivatives, **3**(2), 1971, 346–349

ARNOLD, DAVID M. & LAUBENBACHER, REINHARD C.
Almost split sequences for Dedekind-like rings, **43**(2), 1991, 225–235

ARON, R. M. *See* Ansemil, Aron & Ponte

Zur Theorie der identischen Kongruenzen, **15**(1), 1940, 82–84
BAUMANN, BERND
Über die Struktur von *p*-Normalteilern endlicher Gruppen, **28**(2), 1983, 477–480
BAUMSLAG, B.
Intersections of finitely generated subgroups in free products, **41**(1), 1966, 673–679
Generalized free products whose two-generator subgroups are free, **43**(1), 1968, 601–606
Free Lie algebras and free groups, **4**(2), 1972, 523–532

BAUMSLAG, BENJAMIN & PRIDE, STEPHEN J.
Groups with two more generators than relators, **17**(2), 1978, 425–426
BAUMSLAG, G.
On a problem of Lyndon, **35**(1), 1960, 30–32
Automorphism groups of residually finite groups, **38**(1), 1963, 117–118
See also Bachmuth, Baumslag, Dyer & Mochizuki
BAUMSLAG, GILBERT & ROSEBLADE, JAMES E.
Subgroups of direct products of free groups, **30**(2), 1984, 44–52
BAUTISTA, R. & LARRIÓN, F.
Auslander–Reiten quivers for certain algebras of finite representation type, **26**(2), 1982, 43–52
BAUTISTA, R., LARRIÓN, F. & SALMERÓN, L.
On simply connected algebras, **27**(2), 1983, 212–220
BAXENDALE, PETER
Recurrence of a diffusion process to a shrinking target, **32**(2), 1985, 166–176
BEACHY, J. A.
On quasi-Artinian rings, **3**(2), 1971, 449–452
BEARDON, A. F.
Multiply connected domains which are conformally equivalent to certain symmetrical domains, **40**(1), 1965, 619–622
The structure of words in discrete subgroups of SL(2, *C*), **10**(2), 1975, 201–211
On the isometric circles of elements in a Fuchsian group, **10**(2), 1975, 329–337
Hyperbolic polygons and Fuchsian groups, **20**(2), 1979, 247–254
Fundamental domains and cyclic subgroups of Fuchsian groups, **21**(2), 1980, 291–296
Conformal automorphisms of plane domains, **32**(2), 1985, 245–253
Iteration of contractions and analytic maps, **41**(2), 1990, 141–150
BEARDON, A. F. & NICHOLLS, P. J.
On classical series associated with Kleinian groups, **5**(2), 1972, 645–655
BEARDON, A. F. & POMMERENKE, C.
The Poincaré metric of plane domains, **18**(2), 1978, 475–483
BEARDON, A. F. & WATERMAN, P. L.
Strongly discrete subgroups of SL (2, ℂ), **24**(2), 1981, 325–328
BEATROUS, F. & BURBEA, J.
Boundary regularity for harmonic Hardy–Sobolev spaces, **39**(2), 1989, 160–174
BEATTY, S.
Integral bases for an algebraic function field, **4**(1), 1929, 13–17
BEAZER, R.
Hierarchies of distributive lattices satisfying annihilator conditions, **11**(2), 1975, 216–222
BECK, W. A. & PUTNAM, C. R.
A note on normal operators and their adjoints, **31**(1), 1956, 213–216
BECKENBACH, E. F.
On a theorem of Fejér and Riesz, **13**(1), 1938, 82–86
BECKENSTEIN, E. & NARICI, L.
Reisz's lemma in non-archimedean spaces, **3**(2), 1971, 501–506
BECKER, J. *See* Anderson, Becker & Lesley
BECKER, L. C., BURTON, T. A. & KRISZTIN, T.
Floquet theory for a Volterra equation, **37**(2), 1988, 141–147
BECKER, RONALD I.
Asymptotic expansions of second order linear differential equations having conditionally integrable coefficients, **20**(2), 1979, 472–484
BEDFORD, J. O. & GIBSON, C. G.
Regularity conditions over the first simple elliptic family, **20**(2), 1979, 343–346
Regularity conditions over the second simple elliptic family, **21**(2), 1980, 371–378
BEDFORD, TIM
Dimension and dynamics for fractal recurrent sets, **33**(2), 1986, 89–100
BEETHAM, M. J.
A set of generators and relations for the group PSL (2, *q*), *q* odd, **3**(2), 1971, 554–557
BEHNCKE, HORST
Hermitian Jordan Banach algebras, **20**(2), 1979, 327–333

BEHREND, F. A.
On sequences of numbers not divisible one by another, **10**(1), 1935, 42–44
On obtaining an estimate of the frequency of the primes by means of the elementary properties of the integers, **15**(1), 1940, 257–259
A representation of the Klein bottle, **37**(1), 1962, 432
BEHRENDT, GERHARD & NEUMANN, PETER M.
On the number of normal subgroups of an infinite group, **23**(2), 1981, 429–432
BEHZAD, M., CHARTRAND, G. & COOPER, J. K., JR.
The colour numbers of complete graphs, **42**(1), 1967, 226–228
BEHZAD, M. & RADJAVI, H.
Structure of regular total graphs, **44**(1), 1969, 433–436
BEINEKE, L. W. & HARARY, F.
Local restrictions for various classes of directed graphs, **40**(1), 1965, 87–95
BEKER, HENRY
On strong tactical decompositions, **16**(2), 1977, 191–196
BELCHER, P.
A test for integers being sums of distinct units applied to cubic fields, **12**(2), 1976, 141–148
BELL, ALLEN D.
Goldie dimension of prime factors of polynomial and skew polynomial rings, **29**(2), 1984, 418–424
BELL, ALLEN D. & MUSSON, IAN M.
Primitive factors of enveloping algebras of nilpotent Lie superalgebras, **42**(2), 1990, 401–408
BELL, E. T.
On the representation of $4t+2$ as a sum of $4s$ squares, **4**(1), 1929, 279–284
Residues of certain binomial coefficients for composite moduli, **5**(1), 1930, 253–258
The divisors of numbers, **9**(1), 1934, 82–84
Note on an easier Waring problem, **11**(1), 1936, 277–278
BELL, H. E.
Certain near-rings are rings, **4**(2), 1971, 264–270
BELL, J. L.
A characterization of universal complete Boolean algebras, **12**(2), 1976, 86–88
BELLER, ELIYAHU, FISHER, STEPHEN D. & PINCHUK, BERNARD
Minimal interpolation for harmonic functions, **25**(2), 1982, 297–304
BELLMAN, R.
A note on periodic functions and their derivatives, **18**(1), 1943, 140–142
BELNA, C. & COLWELL, P.
Normal functions have connected essential cluster sets, **8**(2), 1974, 168–170
BELNA, C. L.
Intersections of essential directional cluster sets, **3**(2), 1971, 513–516
BELNA, C. L., BONAR, D. D., CARROLL, F. W., COLWELL, P. & PIRANIAN, G.
Strongly annular Tsuji functions, **19**(2), 1979, 79–92

An asymptotic expansion for the coefficients of some formal power series, **9**(2), 1975, 451–458
BENHAM, J. W., EARNEST, A. G., HSIA, J. S. & HUNG, D. C.
Spinor regular positive ternary quadratic forms, **42**(2), 1990, 1–10
BENNETT, G. & COOPER, J. B.
Weak bases in (F)- and (LF)-spaces, **44**(1), 1969, 505–508
BENNETT, G. T.
Cyclic-symmetric permutations, **10**(2), 1975, 385–388
BENSON, DAVE
Spin modules for symmetric groups, **38**(2), 1988, 250–262
BENTLEY, B.
The multeity locus in projective space of fifteen dimensions, **31**(1), 1956, 471–478
BÉRARD, PIERRE
Remarques sur les variétés harmoniques, **24**(2), 1981, 358–364
Transplantation et isospectralité II, **48**(2), 1993, 565–576
BERBERIAN, S. K.
A note on operators unitarily equivalent to their adjoints, **37**(1), 1962, 403–404

BERCOVICI, H. & TAKAHASHI, K.
On the reflexivity of contractions on Hilbert space, **32**(2), 1985, 149–156
BEREND, DANIEL & PERES, YUVAL
Asymptotically dense dilations of sets on the circle, **47**(2), 1993, 1–17
BERG, C.
Abstract Steiner points for convex polytopes, **4**(2), 1971, 176–180
BERGELSON, VITALY
Sets of recurrence of $\mathbb{Z}^m$-actions and properties of sets of differences in $\mathbb{Z}^m$, **31**(2), 1985, 295–304
BERGELSON, VITALY & HINDMAN, NEIL
Some topological semicommutative van der Waerden type theorems and their combinatorial consequences, **45**(2), 1992, 385–403
BERGER, JOËL & ROBERT, JACQUES
Strongly nonlinear equations of Hammerstein type, **15**(2), 1977, 277–287
BERGH, JÖRAN *See* Arkeryd & Bergh
BERGLUND, J. F.
Compact connected ordered semitopological semigroups, **4**(2), 1972, 533–540
Semitopological semigroups on circles, **5**(2), 1972, 395–398
BERGMAN, G. M.
Boolean rings of projection maps, **4**(2), 1972, 593–598
BERGMAN, G. M. & COHN, P. M.
Symmetric elements in free powers of rings, **1**(2), 1969, 525–534
BERGMAN, G. M. & LEWIN, J.
The semigroup of ideals of a fir is (usually) free, **11**(2), 1975, 21–31
BERKSON, E. & DOWSON, H. R.
On reflexive scalar-type spectral operators, **8**(2), 1974, 652–656
BERKSON, E. & GILLESPIE, T. A.
Absolutely continuous functions of two variables and well-bounded operators, **30**(2), 1984, 305–321
Transference and extension of Fourier multipliers for $L^p(\mathbb{T})$, **41**(2), 1990, 472–488
BERLANGA, R. & EPSTEIN, D. B. A.
Measures on sigma-compact manifolds and their equivalence under homeomorphisms, **27**(2), 1983, 63–74
BERMAN, ROBERT D.
Weak reflection, **28**(2), 1983, 339–349
Analogues of radial uniqueness theorems for subharmonic functions in the unit disk, **29**(2), 1984, 103–112
BERMAN, ROBERT D. & NISHIURA, TOGO
Boundary interpolation for inner functions on σ-dispersed subsets of the unit circle, **38**(2), 1988, 463–484
BERMOND, J-C.
Nombre chromatique total du graphe r-parti complet, **9**(2), 1975, 279–285
BERNAU, S. J.
A note on (M)-spaces, **39**(1), 1964, 541–543
The spectral theorem for normal operators, **40**(1), 1965, 478–486
Lateral and Dedekind completion of archimedean lattice groups, **12**(2), 1976, 320–322
Extension of vector lattice homomorphisms, **33**(2), 1986, 516–524
BERNDT, B. C.
The number of zeros for $\zeta^{(k)}(s)$, **2**(2), 1970, 577–580
Dedekind sums and a paper of G. H. Hardy, **13**(2), 1976, 129–137
BERNHARDT, CHRIS
Periodic points of a class of endomorphisms of the circle, **25**(2), 1982, 539–550
BERNSTEIN, L.
Infinite non-solubility classes of the Delaunay–Nagell diophantine equation $x^3+my^3=1$, **3**(2), 1971, 118–120
BERRICK, A. J.
Obstructions in K-theory, 1, **24**(2), 1981, 449–458
BERRIDGE, P. H. & DUNWOODY, M. J.
Non-free projective modules for torsion-free groups, **19**(2), 1979, 433–436

BERTHIER, D.
Stability of non-model-complete theories; products, groups, **11**(2), 1975, 453–464
BESICOVITCH, A. S.
On a general metric property of summable functions, **1**(1), 1926, 120–128
Sets of fractional dimensions (IV): on rational approximation to real numbers, **9**(1), 1934, 126–131
On the density of the sum of two sequences of integers, **10**(1), 1935, 246–248
On the linear independence of fractional powers of integers, **15**(1), 1940, 3–6
Remark on relative derivatives, **16**(1), 1941, 210–211
On the definition of the area of a surface by means of inscribed polyhedra, **19**(1), 1944, 138–141
On the existence of tangents to rectifiable curves, **19**(1), 1944, 205–207
A note on integral functions, **19**(1), 1944, 207
On Crum's problem, **22**(1), 1947, 285–287
On distance sets, **23**(1), 1948, 9–14
Measure of asymmetry of convex curves, **23**(1), 1948, 237–240
Acknowledgment, **23**(1), 1948, 240
Parametric surfaces (III): On surfaces of minimum area, **23**(1), 1948, 241–246
Measure of asymmetry of convex curves (II): Curves of constant width, **26**(1), 1951, 81–93
On two problems of Loewner, **27**(1), 1952, 141–144
On the existence theorem for the differential equation $dy/dx = \phi(x, y)$, **28**(1), 1953, 110–112
On rearrangement of conditionally convergent series, **28**(1), 1953, 480–488
On approximation in measure to Borel sets by F_σ-sets, **29**(1), 1954, 382–383
On density of perfect sets, **31**(1), 1956, 48–53
On density of linear sets, **32**(1), 1957, 170–178
A uniqueness theorem and a problem on integration, **33**(1), 1958, 82–84
A problem on a circle, **36**(1), 1961, 241–244
Problem on continuity, **36**(1), 1961, 388–392
Two problems on power series, **38**(1), 1963, 223–225
On power series with non-negative coefficients, **39**(1), 1964, 13–14
On fundamental geometric properties of plane line-sets, **39**(1), 1964, 441–448
Arcs and chords (II), **42**(1), 1967, 86–92
On linear sets of points of fractional dimensions—II, **43**(1), 1968, 548–550
BESICOVITCH, A. S. & BOHR, H.
On almost period properties of translation numbers, **3**(1), 1928, 172–176
BESICOVITCH, A. S. & MORAN, P. A. P.
The measure of product and cylinder sets, **20**(1), 1945, 110–120
BESICOVITCH, A. S. & RADO, R.
A plane set of measure zero containing circumferences of every radius, **43**(1), 1968, 717–719
BESICOVITCH, A. S. & TAYLOR, S. J.
On the complementary intervals of a linear closed set of zero Lebesgue measure, **29**(1), 1954, 449–459
BESICOVITCH, A. S. & URSELL, H. D.
Sets of fractional dimensions (V): On dimensional numbers of some continuous curves, **12**(1), 1937, 18–25
BESSENRODT, CHRISTINE
Vertices of simple modules over p-solvable groups, **29**(2), 1984, 257–261
The isomorphism type of an abelian defect group of a block is determined by its modules, **39**(2), 1989, 61–66
BETKE, U. & MCMULLEN, P.
Estimating the sizes of convex bodies from projections, **27**(2), 1983, 525–538
BEVIS, J. H.
A note on a distributivity relation, **2**(2), 1970, 521–524
BEYNON, W. M.
Combinatorial aspects of piecewise linear functions, **7**(2), 1974, 719–727
BEZEM, MARC & VELDMAN, WIM
Ramsay's Theorem and the pigeonhole principle in intuitionistic mathematics, **47**(2), 1993, 193–211

BHATT, R. C.
Another proof of Watson's theorem for summing ${}_3F_2(1)$, **40**(1), 1965, 47–48
BHATWADEKAR, S. M.
On the global dimension of some filtered algebras, **13**(2), 1976, 239–248
BIAGIONI, H. A. & COLOMBEAU, J. F.
New generalized functions and C^∞ functions with values in generalized complex numbers, **33**(2), 1986, 169–179
BIER, T. & GREENLEES, J. P. C.
The lattice spanned by the cosets of subgroups in the integral group ring of a finite group, **47**(2), 1993, 433–449
BIGGS, N. L.
Constructing 5-arc-transitive cubic graphs, **26**(2), 1982, 193–200
Homological coverings of graphs, **30**(2), 1984, 1–14
BIGGS, N. L., BOSHIER, A. G. & SHAWE-TAYLOR, J.
Cubic distance-regular graphs, **33**(2), 1986, 385–394
BIJAN-ZADEH, MOHAMMAD H.
Torsion theories and local cohomology over commutative Noetherian rings, **19**(2), 1979, 402–410
On the Artinian property of certain local cohomology modules, **32**(2), 1985, 399–403
BILIOTTI, MAURO & KORCHMAROS, GABOR
Collineation groups which are primitive on an oval of a projective plane of odd order, **33**(2), 1986, 525–534
BILLING, G. & MAHLER, K.
On exceptional points on cubic curves, **15**(1), 1940, 32–43
BING, R. H. & KLEE, V. L.
Every simple closed curve in E^3 is unknotted in E^4, **39**(1), 1964, 86–94
BINGHAM, M. S. & PARTHASARATHY, K. R.
A probabilistic proof of Bochner's theorem on positive definite functions, **43**(1), 1968, 626–632
BINGHAM, N. H.
A Tauberian theorem for integral transforms of Hankel type, **5**(2), 1972, 493–503
Integral representations for ultraspherical polynomials, **6**(2), 1972, 1–11
Integrability theorems for convolutions, **18**(2), 1978, 502–510
On Borel and Euler summability, **29**(2), 1984, 141–146
Tauberian theorems for summability methods of random-walk type, **30**(2), 1984, 281–287
BINMORE, K. G.
A trigonometric inequality, **41**(1), 1966, 693–696
The coefficients of exponential series, **10**(2), 1975, 19–24
BIRCH, B. J.
A transference theorem in the geometry of numbers, **31**(1), 1956, 248–251
Multiplicative functions with non-decreasing normal order, **42**(1), 1967, 149–151
How the number of points of an elliptic curve over a fixed prime field varies, **43**(1), 1968, 57–60
BIRCH, R. H.
An algorithm for the construction of arctangent relations, **21**(1), 1946, 173–174
BIRMAN, JOAN S. & SERIES, CAROLINE
An algorithm for simple curves on surfaces, **29**(2), 1984, 331–342
BISHARA, S.
On a double-six whose cubic surface and cubic envelope are apolar, **5**(1), 1930, 196–199
On properties of a set of Schur quadrics of a cubic surface, **6**(1), 1931, 12–15
Double-sizes whose cubic surface and cubic envelope are apolar, **8**(1), 1933, 178
BLACKBURN, K. & WRIGHT, D. J.
The associative law for intersection numbers, **41**(1), 1966, 433–442
BLACKBURN, N.
Nilpotent groups in which the derived group has two generators, **35**(1), 1960, 33–35
On centralizers in p-groups, **9**(2), 1975, 478–482
BLAIR, D. E. & OKUMURA, M.
A characterization of $S^{n-1} \times S^1$ by differential equations, **8**(2), 1974, 122–124

BLAKE, L.
Further results concerning games which become fairer with time, **6**(2), 1973, 311–316
A note concerning first order games which become fairer with time, **9**(2), 1975, 589–592
A smoothing index and equiconvergence of martingales, **11**(2), 1975, 385–388
Every Amart is a martingale in the limit, **18**(2), 1978, 381–384
Weak submartingales in the limit, **19**(2), 1979, 573–575
BLAKEY, J.
Note on a property of the plane quartic curve, **5**(1), 1930, 50–54
BLANEY, H.
Indefinite quadratic forms in n variables, **23**(1), 1948, 153–160
BLASS, ANDREAS & HARARY, FRANK
Degree sequences of infinite graphs, **23**(2), 1981, 10–16
BLATT, H.-P., SAFF, E. B. & SIMKANI, M.
Jentzsch–Szegö type theorems for the zeros of best approximants, **38**(2), 1988, 307–316
BLECHER, DAVID P. & SMITH, ROGER R.
The dual of the Haagerup tensor product, **45**(2), 1992, 126–144
BLECHER, D. P.
Tracially completely bounded multilinear maps on C*-algebras, **39**(2), 1989, 514–524
BLEI, RON C.
Combinatorial dimensions and fractional Cartesian products in Euclidean spaces, **42**(2), 1990, 373–384
BLISS, G. A.
An integral inequality, **5**(1), 1930, 40–46
BLOCK, J. & DE CANNIÈRE, J.
Spectral subspaces of automorphism groups of type I factors, **26**(2), 1982, 504–516
BLUNDON, W. J.
Multiple packing of circles in the plane, **38**(1), 1963, 176–182
BLYTH, RUSSELL D. & ROBINSON, DEREK J. S.
Solution of the solubility problem for rewritable groups, **41**(2), 1990, 438–444
BLYTH, T. S.

On Sz.-Nagy's dilation theorem for positive definite functions in *LVH*-spaces, **24**(2), 1981, 283–292
NIESI, G. *See* Marinari & Niesi
NIINO, K.
Deficiencies of a composite function of entire functions, **12**(2), 1976, 89–96
NISHIURA, TOGO *See* Berman & Nishiura
NITSURE, NITIN
Topology of conic bundles, **35**(2), 1987, 18–28
NJÅSTAD, O.
A note on compactification by bounding systems, **40**(1), 1965, 526–532
NOBLE, M. E.
A theorem on the zeros of integral functions, **25**(1), 1950, 282–284
On Taylor series with gaps, **28**(1), 1953, 197–203
A further note on Taylor series with gaps, **30**(1), 1955, 220–228
Boundary behaviour of a class of Laplace–Stieltjes transforms, **32**(1), 1957, 156–170
A note on non-continuable power series, **35**(1), 1960, 117–127
NODA, RYUZABURO
On orthogonal arrays of strength 4 achieving Rao's bound, **19**(2), 1979, 385–390
NOIRI, TAKASHI
A generalization of perfect functions, **17**(2), 1978, 540–544
NOMURA, YASUTOSHI
On the desuspension of Whitehead products, **22**(2), 1980, 374–384
NONGXA, LOYISO G.
An indecomposable balanced subgroup of a finite rank completely decomposable group, **29**(2), 1984, 262–268
NOONAN, J. W. & THOMAS, D. K.
On successive coefficients of functions of bounded boundary rotation, **5**(2), 1972, 656–662
The integral means of regular functions, **9**(2), 1975, 557–560
NORDGREN, ERIC *See* Hadwin, Nordgren, Radjavi & Rosenthal
NORMAN, C. W.
The automorphism groups of a certain class of 5-designs, **8**(2), 1974, 335–338
On fixed-point-free involutions of $P\Gamma L_n(K)$, **13**(2), 1976, 573–576
NORRIS, J. W.
Boundedness in periodically forced second order conservative systems, **45**(2), 1992, 97–112
NORTHCOTT, D. G.
Some inequalities between periodic functions and their derivatives, **14**(1), 1939, 198–202
The number of analytic branches of a variety, **25**(1), 1950, 275–279
On the local cone of a point on an algebraic variety, **29**(1), 1954, 326–333
The neighbourhoods of a local ring, **30**(1), 1955, 360–375
A note on the genus formula for plane curves, **30**(1), 1955, 376–382
On irreducible ideals in local rings, **32**(1), 1957, 82–88
A note on polynomial rings, **33**(1), 1958, 36–39
An algebraic relation connected with the theory of curves on non-singular surfaces, **34**(1), 1959, 195–204
A note on the coefficients of the abstract Hilbert function, **35**(1), 1960, 209–214
On the homology theory of general commutative rings, **36**(1), 1961, 231–240
Injective envelopes and inverse polynomials, **8**(2), 1974, 290–296
Projective ideals and MacRae's invariant, **24**(2), 1981, 211–226
Multiplicities of matrices on modules, **27**(2), 1983, 385–401

NORTHCOTT, D. G. & REES, D.
Extensions and simplifications of the theory of regular local rings, **32**(1), 1957, 367–374
NOSAL, E.
On a partition relation for ordinal numbers, **8**(2), 1974, 306–310
NUALTARANEE, S.
On hyperplane means of non-negative subharmonic functions, **7**(2), 1973, 48–54
NUNKE, R. J. & ROTMAN, J. J.
Singular cohomology groups, **37**(1), 1962, 301–306
NUSSBAUM, A. EDWARD
Semi-groups of subnormal operators, **14**(2), 1976, 340–344
NUSSBAUM, ROGER D. & STUART, CHARLES A.
A singular bifurcation problem, **14**(2), 1976, 31–38

OATES, D. K.
Simple extreme points, **1**(2), 1969, 135–139
The dual space of $C^n(X)$, **1**(2), 1969, 689–692
OATES, S.
Identical relations in groups, **38**(1), 1963, 71–78
OBI, C.
Subharmonic solutions of non-linear differential equations of the second order, **25**(1), 1950, 217–226
Periodic solutions of non-linear differential equations of order $2n$, **28**(1), 1953, 163–171
A non-linear differential equation of the second order with periodic solutions whose associated limit cycles are algebraic curves, **28**(1), 1953, 356–360
OBI, GABRIEL M. M.
Closed graph theorem for quadratic spaces, **22**(2), 1980, 245–250
OBLÁTH, R.
Note on the binomial coefficients, **23**(1), 1948, 252–253
OBRECHKOFF, N.
Sur les fonctions méromorphes périodiques, **14**(1), 1939, 114–116
O'BRIEN, R. *See* Borwein, Edelstein & O'Brien
O'BRIEN, RICHARD C.
A note on the contraction extension property in dual Banach spaces, **16**(2), 1977, 490–492
See also Edelstein & O'Brien
O'CARROLL, L.
A basis for the theory of residuated groupoids, **3**(2), 1971, 7–20
Quasi-reduced inverse semigroups, **9**(2), 1975, 142–150
Reduced inverse and partially ordered semigroups, **9**(2), 1975, 293–301
On the generalized fractions of Sharp and Zakeri, **28**(2), 1983, 417–427
See also Mahmood, Meldrum & O'Carroll; McAlister & O'Carroll
O'CONNOR, ANGELA & ROGERS, AMBROSE
A topological dimension, **46**(2), 1992, 180–192
ODLYZKO, A. M.
Minima of cosine sums and maxima of polynomials on the unit circle, **26**(2), 1982, 412–420
ODONI, R. W. K.
Multiplicative forms and associative algebras, **8**(2), 1974, 198–200
On the prime divisors of the sequence $w_{n+1} = 1 + w_1 \dots w_n$, **32**(2), 1985, 1–11
A problem of Rankin on sums of powers of cusp-form coefficients, **44**(2), 1991, 203–217
See also Cremona & Odoni
OEHRING, CHARLES *See* Cochran & Oehring
O'FARRELL, A. G.
Lip 1 rational approximation, **11**(2), 1975, 159–164
Continuity properties of Hausdorff content, **13**(2), 1976, 403–410
O'FARRELL, ANTHONY G.
Polynomial approximation of smooth functions, **28**(2), 1983, 496–506
OFFEI, D. N.
Some asymptotic expansions of a third-order differential equation, **44**(1), 1969, 71–87
OFFORD, A. C.
On the summability of trigonometrical series, **7**(1), 1932, 169–175

Note on a theorem of H. Bohr, **10**(1), 1935, 139–143
Note on a theorem of H. Bohr—*Corrigendum*, **10**(1), 1935, 240
Note on the uniqueness of the representation of a function by a trigonometrical integral, **11**(1), 1936, 171–174
The pits property of entire functions, **44**(2), 1991, 463–475
See also Littlewood & Offord
OGER, FRANCIS
Cancellation and elementary equivalence of finitely generated finite-by-nilpotent groups, **44**(2), 1991, 173–183
OHMOTO, TORO
A geometric approach to Thom polynomials for C^∞ stable mappings, **47**(2), 1993, 157–166
OHNITA, YOSHIHIRO
On pluriharmonicity of stable harmonic maps, **35**(2), 1987, 563–568
OHSHIKA, KEN'ICHI
Ending laminations and boundaries for deformation spaces of Kleinian groups, **42**(2), 1990, 111–121
OINAROV, R.
On weighted norm inequalities with three weights, **48**(2), 1993, 103–116
OKA, M.
On the fundamental group of the complement of a reducible curve in $\mathbb{P}^2$, **12**(2), 1976, 239–252
OKADA, TADASHIGE
Normal bases of class fields over Gauss' number field, **22**(2), 1980, 221–225
Dirichlet series with periodic algebraic coefficients, **33**(2), 1986, 13–21
OKIKIOLU, G. O.
A generalisation of the Hilbert transform, **40**(1), 1965, 27–30
Bounded linear transformations in L^p space, **41**(1), 1966, 407–414
On operators which approximate to the identity, **42**(1), 1967, 477–483
Restrictions on the ranges of bounded linear operators in L^p spaces, **42**(1), 1967, 706–711
On the operator $F_\sigma^{(\nu)}$ and fractional integrals, **1**(2), 1969, 619–629
OKIKIOLU, KATE
Characteristics of subsets of rectifiable curves in $\mathbb{R}^n$, **46**(2), 1992, 336–348
OKOH, FRANK
Indecomposable rank two modules over some Artinian ring, **22**(2), 1980, 411–422
OKON, J. S., RUSH, DAVID E. & VICKNAIR, PAUL
Commutative semigroup rings with two-generated ideals, **45**(2), 1992, 417–432

A covering theorem for abelian groups, **26**(1), 1951, 71–72
Covering problems concerning abelian groups, **27**(1), 1952, 242–246
ZARGHAMEE, M. S. *See* Mehri & Zarghamee
ZASSENHAUS, H.
Orders as endomorphism rings of modules of the same rank, **42**(1), 1967, 180–182
See also Roquette & Zassenhaus; Hirsch & Zassenhaus
ZDRAVKOVSKA, S.
Consequences of a theorem of H. Margolis, **13**(2), 1976, 489–492
ZEDEK, M.
The linear measures of n-podes in conformal maps of the unit disk, **6**(2), 1973, 301–306

ZEE-KIANG, S.
On the variation of increasing functions whose first $2n$ Fourier coefficients are given, **19**(1), 1944, 71–77
ZEEMAN, E. C.
On direct sums of free cycles, **30**(1), 1955, 195–212
ZELEVINSKY, A. V. *See* Springer & Zelevinsky
ZELINKA, B.
A remark on a graph-covering conjecture of D. R. Woodall, **6**(2), 1973, 637–638
ZELLER, K. *See* Wilansky & Zeller
ZELMANOWITZ, J. M.
Representations of rings with faithful monoform modules, **29**(2), 1984, 237–248
ZEMÁNEK, JAROSLAV *See* Aupetit & Zemánek
ZEMMER, J. L.
The additive group of an infinite near-field is abelian, **44**(1), 1969, 65–67
A note on doubly transitive permutation groups, **17**(2), 1978, 74–78
ZETTL, A.
Perturbation theory of deficiency indices of differential operators, **12**(2), 1976, 405–412
See also Everitt, Kwong & Zettl; Evans & Zettl; Everitt & Zettl; Race & Zettl; Evans & Zettl
ZHOU, SONG PING
A note on the paper 'On linear positive operators', **40**(2), 1989, 265–266
ZIEMER, WILLIAM P.
The Dirichlet problem for Euler–Lagrange equations on arbitrary domains, **19**(2), 1979, 481–487
See also Gariepy & Ziemer
ZIEMIAN, KRYSTYNA *See* Misiurewicz & Ziemian
ZIESCHANG, HEINER *See* Rost & Zieschang
ZIESCHANG, P.-H. *See* Camina & Zieschang
ZILINSKAS, G.
On the class number of indefinite quadratic forms in n variables with determinant ± 1, **13**(1), 1938, 225–240
On the product of four homogeneous linear forms, **16**(1), 1941, 27–37
ZIMMER, ROBERT J.
Compactness conditions on cocycles of ergodic transformation groups, **15**(2), 1977, 155–163
ZOUAKIA, FOUAD
Semi groupes réels dans les algèbres de Banach commutatives, **36**(2), 1987, 543–552
ZOU JIE-ZHONG
Some new inequalities for p-functions, **38**(2), 1988, 356–366
ZUCKER, I. J.
New derivations of a q-series for the product $\theta_2\,\theta_4$, **12**(2), 1976, 112–116
ZVENGROWSKI, P.
Skew linear vector fields on spheres, **3**(2), 1971, 625–632
ZYGMUND, A.
Remarque sur la convergence absolue des séries de Fourier, **3**(1), 1928, 194–196
Sur les séries trigonométriques lacunaires, **5**(1), 1930, 138–145
Sur les séries trigonométriques lacunaires—*Corrigendum*, **5**(1), 1930, 272
On a theorem of Ostrowski, **6**(1), 1931, 162–163
On an integral inequality, **8**(1), 1933, 175–178
